Brief about society

The North East Cell is a registered cultural society of Shaheed Rajguru College of Applied Sciences for Women, wherein we give the students, not only from the north eastern part of India but from all around the world a platform to express themselves freely and teach them to openly own their identities without any hesitation.

North-East Cell gives equal representation and opportunities to students from all over the world despite the differences we have among each other. Students from different parts of the world came to study in University of Delhi and have faced many because of the differences we have, our cell ensures that despite of all these, there are ways where we can be in the same room.

Our cell takes great pride in whatever our team does, because of the members we have and the kind of word we do.
