

Microbiology - Department activities

2018-19

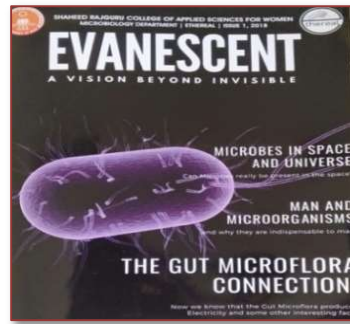

S.no	Name of the activity	Page No
1	Technical Fest –Plexus'18	1
2	Talk- Microbial Biofilms –Resistance and Persistence	2
3	Talk – Nanotechnology and its applications	2
4	Social outreach – Information leaflet on the importance of microbes in our daily lives.	3
5	Educational visit – Gentle Imaging and Diagnostic center	3
6	Educational visit – Delhi Milk Scheme	3

1. The Department organized an Interdepartmental Technical event '**Plexus'18** jointly along with departments of Biochemistry and Biomedical Science on October 12th, 2018.

Two scientific talks on the theme Diagnostics were organized during the event: Dr. B. C. Koner, Director, Professor of Biochemistry, Maulana Azad Medical College, delivered his talk on the topic – ***Use of laboratory tests in diagnosis and management of Diabetes Mellitus***. Prof. Farhan Jalees Ahmad, Dean, Interdisciplinary Sciences and Technology, Professor, Pharmaceutics, School of Pharmaceutical Education & Research, Jamia Hamdard, talked about Lab diagnostic made easy. An inter-college activity – ***Quiznostics : The battle of Minds*** was also organized during Plexus 18. Approx. 300 students from the three departments as well as students from other colleges attended the event. First issue of the department magazine '***Evanescent' – A vision beyond invisible***' was released

during Plexus'18. It was an initiative of students right through the authoring, editing and designing of the issue.

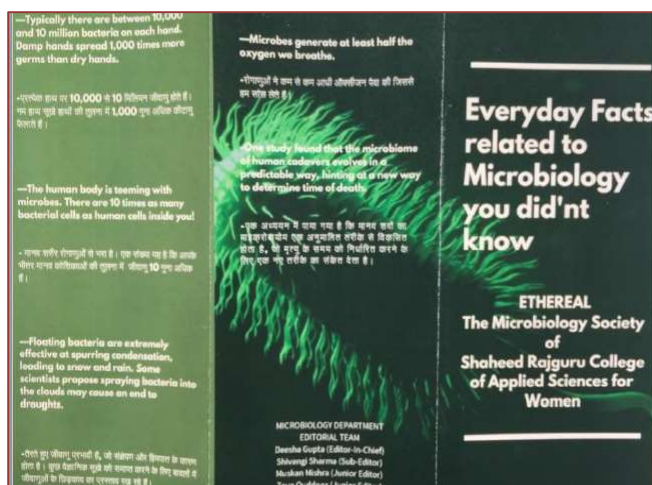

2. A talk was delivered by Dr. Neetu Kumra Taneja, Assistant Professor, National Institute of Food Technology Entrepreneurship and Management on the topic ***Microbial Biofilms – Resistance and Persistence*** on October 23rd, 2018. Approximately 80-90 students attended the talk.

3. The Department organized a talk on **Nanotechnology and its applications** by Prof. Shatendra K. Sharma, Director, University Science Instrumentation Centre, JNU on February 6th, 2019. Approximately 80-90 students attended the talk.

4. Under Social outreach program, the department released an **information leaflet highlighting the importance of microbes in our daily lives**. It's a small initiative to spread awareness about the subject not only amongst intelligentsia but also a common man. That's why the information is bilingual. The leaflet was distribute amongst teachers and non-teaching staff.

5. The students of B. Sc. (H) Microbiology semester IV visited *Gentle Imaging and Diagnostic Center* on March 11th, 2019. A total of 33 students along with teachers visited the facility.

6. The students of B. Sc. (H) Microbiology semester II and IV visited *Delhi Milk Scheme* on March 27th, 2019. Approximately 60 students and teachers visited the facility.
