

Activities for year 2020-21

- Organized an online “Rajguru – AI Gaming Event” on 26th September 2020. It was attended by around 30 participants. They learnt about Microsoft Azure cognitive services and also coded their own gaming bots using Python and JSON.
- Organized a 40 hour workshop on HTML and CSS on 10th and 11th October in association with Progate to help students get started with their web development journey. Around 129 students enthusiastically participated from various colleges from which 56 students were from our own college.
